

THE AMAZONIAN BRAZIL NUT

PRODUCT FROM BOLIVIA FOR THE EXPORT

The Brazil Nut Tree

(*Bertholletia Excelsia*)

THE AMAZONIAN FOREST

BOLIVIA

HEART OF THE SOUTH

The Brazil nut tree (*Bertholletia Excelsia*) grows wild in the rainforest and produces edible nuts annually.

These are collected by communities who take care of the wild trees, bringing ecological and social value to the region.

The Amazonian Nut Trail

Sorting

We sort the kernels principally by size in Medium and Midget.

**STEP
01**

**STEP
02**

Cracking

Cracking the Amazonian nuts one by one takes practice.

Quality Control

It is our job to ensure that the goods comply with all quality requirements.

**STEP
03**

**STEP
04**

Packing

The nuts are carefully packed in 44 Lb boxes.

Export

Done! Time to export our amazonian nuts!

**STEP
05**

EBA works with about **2.000** families of collectors who gather more than **160** tons of the product that goes through one of our **3** facilities and is finally shipped all over the world in about **100** containers per year.

ABOUT US

AMAZONIAN NUT FROM BOLIVIA

EBA is a public company from Bolivia dedicated to the production, commercialisation and distribution of Brazil nuts, with his own Branch in Europe.

Since 2013 is **EBA INTERNATIONAL**, located in Hamburg - Germany, committed to export and to import our product and support our customers worldwide, without intermediaries.

CERTIFICATION

EBA offers help and financing for communities to obtain organic certification in order to improve their income.

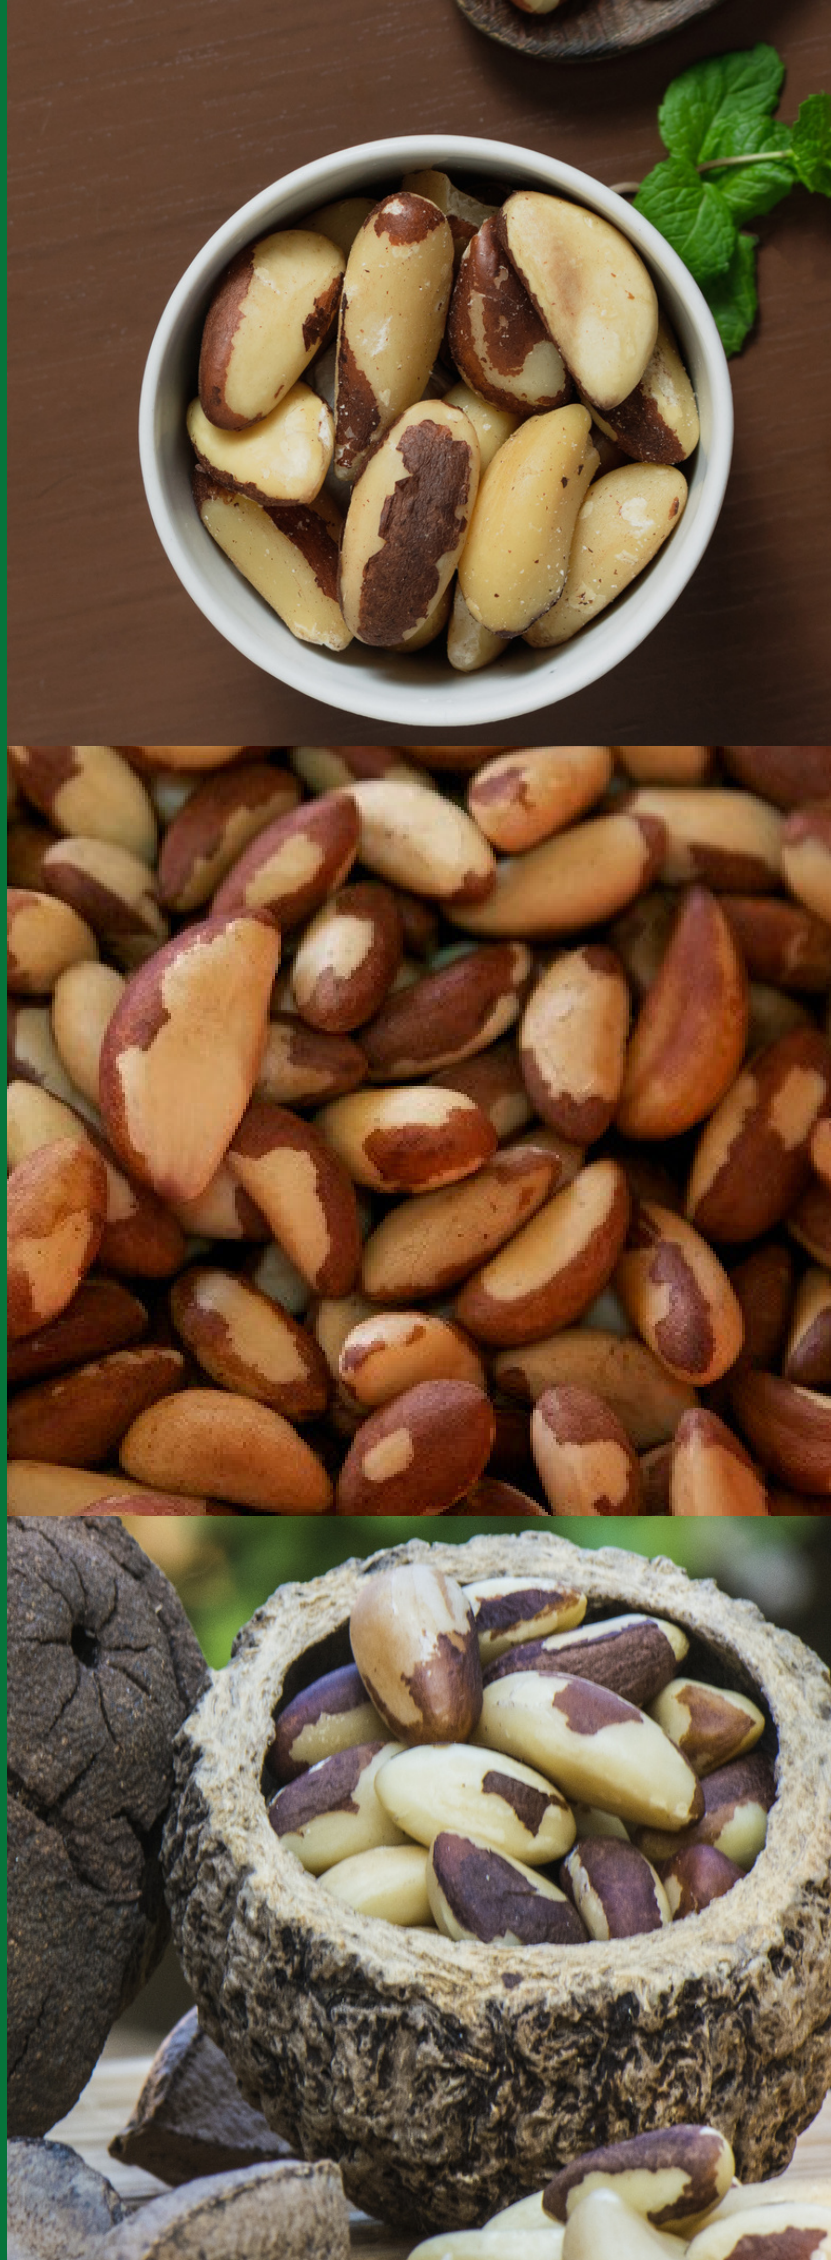

GENDER QUALITY

EBA empowers woman in the Amazonian region, giving education about rights and household management.

TRAINING

EBA employs people in need and helps them to get school certificates in a dual education system, training for example bakers and patissiers.
